

PROVO CITY CLASSIFICATION SPECIFICATION	
Title: GIS/CAD Technician	Job Code: 2408, 2409, 2410
Date: September 28, 2017	EEO Code: TE
FLSA Designation: Non-exempt	Civil Service Status: Covered (UC)

DEFINITION: This is skilled, technical engineering support work performed in the field or office in assistance to higher-level technicians or professional engineers.

CLASSIFICATION STANDARDS: Positions allocated to this career series are responsible to a designated supervisor and perform all tasks under close to general direction. The multiple levels of this career series are distinguished by the amount of supervision, knowledge, and skill needed.
Note: Employees of this class are eligible for advancement to the next level in this career series as directed by policy.

ESSENTIAL DUTIES: Technician I: Operate and maintain GIS and/or CAD systems; perform periodic database retrievals, updates, and backups; assist in implementing CAD upgrades and applications improvements; identify system needs and recommend improvements; maintain map and data information; assist in designing and documenting electrical projects by plotting site maps and adding as-built information; assist with component detail drawings and engineering standard drawings; collect and verify field data; revise plans; operate and maintain drafting equipment; assist department members, other City personnel, and the public in locating and researching needed information; perform other related duties as required.

Technician II: Perform essential duties of Technician I; maintain computerized updating programs for engineering-related records and statistics for GIS; analyze and collect GIS data; advise on system changes and assist in implementation; recommend purchasing equipment, including hardware, software, plotters, and copiers; perform other drafting work by drawing engineering design plans; provide graphics and illustrations using various programs for review and approval; interpret graphic illustrations into multiple graphics formats; reduce and compile information and data as interpreted by superiors to easily understandable and graphic form; generate maps; attend required meetings and offer assistance and expertise; may supervise subordinates on various projects; train employees on use, programming, and maintenance of department equipment; perform other related duties as required.

Senior Technician: Perform essential duties of lower-level Technicians; act as GIS project manager; coordinate needs of GIS and engineering system with available resources and technical advances; design technical GIS structures and databases; develop technical GIS programs; structure database programs; administer GIS system for applicable data; formulate administrative procedures for GIS program management; modify GIS processes to fit department needs; plan programs, both broad based and specific; direct and train others in GIS programs; perform quality control and assign priority and project progression; supervise work groups and subordinates in design work or assistance to a professional engineer; assist and review work of subordinates and staff; perform other related duties as required.

MINIMUM REQUIREMENTS: All Levels: Associate's degree in drafting, GIS, or closely related field. **Technician I:** One (1) year of job-related experience, including using a GIS or CAD system. **Technician II:** Completion of GIS or AutoCAD course and either two (2) years of experience as a GIS/CAD Technician I **OR** three (3) years of comparable job-related experience, including using a GIS or CAD system. **Senior Technician:** Completion of an AutoCAD, ArcCAD, and ArcGIS course and either two (2) years of experience as a GIS/CAD Technician II **OR** five (5) years of

2408, 2409, 2410(2)

comparable job-related experience, including using a GIS or CAD system. At all levels, an equivalent combination of job-related education and experience may be used (substituting each one (1) year of post-secondary education/training for six (6) months of experience).

License(s)/Certification(s): A valid, lawful Driver's License is required.

SELECTION FACTORS: *Knowledge of:* GIS or AutoCAD software in AM/FM/GIS applications and integration of tabular data with AutoCAD attributes lists; spreadsheets, word processors, databases, Windows, Networks, scanning, ArcGIS, and other engineering-related programs; computer operation and maintenance; database creation, ADE and relational queries and data manipulation, document creation of slide presentations with graphic programs; operation of plotters, printers, and digitizers; drafting methods and techniques in engineering drawing; operations, functions, theories, and terminology common to GIS/CAD operations; related laws, codes, rules, and regulations governing functions of the position; policies and procedures established for work system; basic English composition, spelling, and grammar. *Skill in:* database development, interfacing with other graphics and non-graphics applications, and CAD map and drawing techniques; performing SQL queries to extract data; training others in AutoCAD and ArcGIS; creating programming menus, fields, and applications; practicing trust-building behaviors. *Ability to:* learn and keep current with technology; use Civil Software applications; deal with the public in a pleasant, courteous, and calm manner; communicate effectively both orally and in writing; develop and maintain effective working relationships with the public, coworkers, and superiors; supervise subordinate employees effectively; coordinate, organize, and implement all GIS needs; quickly and accurately perform work; evaluate programs and procedures; exercise independent judgment while evaluating situations and in making determinations; organize assigned work and develop effective work methods; prepare clear, concise, accurate, and informative reports; perform duties in a manner that demonstrates respect, integrity, courtesy, and kindness towards fellow workers, customers, and the general public; demonstrate a high level of commitment to the principles of positive customer service.

TOOLS AND EQUIPMENT USED: Computer, calculator, telephone, vehicle, GPS, utility locator, construction hand tools, and equipment for drafting, surveying, engineering, and pole testing.

PHYSICAL DEMANDS: Requires sitting/standing at a computer for extended periods, pulling drawings out of files, walking, stretching, bending, and carrying heavy equipment (20-50 lbs.).

ENVIRONMENTAL FACTORS: Requires exposure to adverse weather conditions, heavy traffic, rough terrain of unimproved roads/trenches, chemical fumes, flammable materials, and the emotional stress of the work environment, including contact with the public in confrontational or uncomfortable circumstances. *Note: Employees of this class may be subject to on-call status.*
