Markers and Monuments

Ownership, Liability, Risks, and Maintenance of Monuments & Markers

Monuments and markers are the personal property of the owner. The placing of monuments and markers is done so at the owner’s risk. The owner assumes all liability and costs for the maintenance and repair of monuments and markers including, but not limited to: the raising of settled markers, the repair of cracks, chips, scratches, and the repair or replacement of a marker due to age.

Our cemetery staff is not equipped to raise markers or monuments; please contact the monument company of your choice.

Care and Maintenance

Care and Maintenance shall include the following services: filling of a grave, seeding or sodding of the grave site after it is filled, and watering and cutting of the grass, except in times of drought. Permanent Maintenance fees are non-transferable.

The raising of a settled grave site is not a service included in perpetual maintenance. If a patron submits a special request for an established grave to be raised, the City Sexton is empowered by city ordinances to survey the area and decide whether such action is feasible. If the Sexton decides the established grave can be raised, he may then assess a fee based upon the cost of the city.
