

Down Payment Assistance

In 2000, Provo City made a commitment to partner with our local non-profits and neighborhoods to engage our community in efforts to revitalize and preserve our Pioneer Neighborhoods. This ongoing effort is supported by private and federal funding, as well as a Congressional Economic Development Initiative (EDI) Special Purpose Grant for home ownership. Our vigorous determination to succeed is having a profound impact on the lives of those living in these neighborhoods.

An important element of our revitalization efforts is our down-payment assistance programs. Down-payment assistance is available for low-income families/individuals through the Provo City Housing Division. More information regarding the [down-payment assistance programs is available here](#) or by contacting the Provo City Housing Division at 801-852-6160.
