**Current Legal Use:** Commercial Hotel

**Relevant History:** There is an existing utility cabinet structure on the roof of the Marriott Hotel that contains various antennas.

**Neighborhood Issues:** There have been no neighborhood issues reported to staff. The neighborhood chair has not responded to this application.

**Summary of Key Issues:**
- The site was approved for this use in 1999 (casefile #99-0009CUP).
- The applicant proposes the installation of new antennas and cables to an existing utility cabinet.

**STAFF RECOMMENDATION:**
That the Administrative Hearing Officer approve the proposed use, with the following conditions:
1. That a business license be applied for and approved within 10 days of the approval of this conditional use permit.
2. That a building permit be obtained prior to beginning any work.
3. That an application and approval to modify the conditional use permit be completed prior to any other modification or change to the communications tower and equipment shelter.

**Alternative Actions:**
1. **Continue** to a future date to obtain additional information or to further consider information presented. *The next available meeting date is May 7, 2014, 5:00 P.M.*
2. **Deny** the requested Conditional Use Permit. *This action would not be consistent with the recommendations of the Staff Report.*
OVERVIEW

The applicant proposes to add new antennae and cables to the existing utility cabinet on the top of the Marriott Hotel. The existing antennae at this site were approved with a conditional use permit in 1999. Specifically, the applicant proposes to install three new antennae and related cables to the existing structure.

PLANNING REVIEW

1. Compliance with 14.02.040

   The ordinance, in part, is as follows:
   
   (1) The Planning Commission may, subject to the procedures and standards set forth in this Chapter, grant, conditionally grant, or deny an application for a Conditional Use Permit for uses allowed by the chapter for the applicable zone. The purpose of a Conditional Use Permit is to allow proper integration of uses into the community which may only be suitable in specific locations and may have potentially detrimental characteristics if not properly designed, located, and conditioned.

   (2) The following standards shall apply to any request for a Conditional Use Permit:

   (a) A proposed conditional use shall be granted unless the subject use will be detrimental to the health, safety, or general welfare of persons residing in the vicinity or injurious to property in the vicinity.

   The proposal is adding on antennae to a structure that already houses similar communication equipment. The proposed antennae will not be taller than any that currently exist. Staff believes that these additions will not be detrimental to the safety of persons or property; will not interfere with the lawful use of surrounding property; will not create a need for essential municipal services; or be detrimental in any way to the health, safety, or general welfare of persons residing in the vicinity.

   (b) A proposed conditional use shall be detrimental to the health, safety, or general welfare of persons residing in the vicinity or injurious to property in the vicinity:

   (i) if the proposed use will cause unreasonable risks to the safety of persons or property because of vehicular traffic or parking, large gatherings of people, or other causes;
   (ii) if the proposed use will unreasonably interfere with the lawful use of surrounding property;
   (iii) if the proposed use will create a need for essential municipal services which cannot be reasonably met;
   (iv) if the proposed use will in any other way be detrimental to the health, safety or general welfare of persons residing in the vicinity or injurious to property in the vicinity.

   The proposed additions to the utility cabinet will not be detrimental to the safety of persons or property; will not interfere with the lawful use of surrounding property; will not create a need for essential municipal services; or be detrimental in any
other way to the health, safety, or general welfare of persons residing in the vicinity or injurious to property in the vicinity.

(c) A change in the market value of real estate shall not be a basis for the denial of a proposed conditional use.

This standard does not apply.

(d) If a part of a proposed conditional use is found to be contrary to the standards described in this section, the applicant may propose or consent to curative measures which will make the proposed use not contrary to the standards described in this section.

2. Project Plan Approval
   Not required.
3. Design Review
   Not required.
4. Landscaping
   There are no changes to the existing landscaping on the property.
5. Trash Container Enclosure
   Not required.
6. Fencing
   No changes in existing fencing on site.
7. Parking
   Not required.
8. Signage
   Not required.
9. Transitional Development Standards
   The existing site does not require any transitional development standards.
10. Design Corridor
    The existing site is not in a design corridor.
11. Other Concerns
    The proposed antennae will not extend above the existing antennae on the site.

BUILDING INSPECTION REVIEW

The proposal will require a building inspection, which will be done after a building permit is issued.

OTHER CITY DEPARTMENTS

This proposal has been reviewed and approved by all relevant City Departments.
BONDING

This proposal does not require any bonding.

CONCLUSIONS

The proposed antenna and cable additions to the existing utility cabinet will have negligible impact on the surrounding properties and will not detrimentally affect the health, safety, and welfare of the public.

RECOMMENDATION

Staff recommends approval of the proposed antennae with the following conditions.

CONDITIONS OF APPROVAL

1. That a business license be applied for and approved within 10 days of the approval of this conditional use permit.

2. That a building permit be obtained prior to beginning any work.

3. That an application and approval to modify the conditional use permit be completed prior to any other modification or change to the communications tower and equipment shelter.
